

**On March 23, 2015, We Want to Send You
(Via FedEx) Your First
Stansberry Dividend***

***For qualified Stansberry Research subscribers ONLY**

Starting this month, we're launching one of the biggest, most ambitious projects in the history of Stansberry Research.

It's something we have never attempted before in the 16 years we've been in business. But if successful, it could forge an entirely new type of relationship with our best subscribers.

In short, starting this month, we're initiating our first-ever 'Monthly Dividend'.

It will be paid to Stansberry Research subscribers who qualify as of March 2015.

This may seem highly unusual to you. And it is.

To qualify, we're not asking you to buy a yearly subscription to one of our newsletters or trading research services.

And no, Porter is not taking the company public. At least, not yet.

But our business is thriving. Last year was one of our best years ever. Not just in terms of the number of new subscribers we brought on. But also in terms of the volume of valuable

educational content we created for our readers.

So we've decided to reward our best, most loyal subscribers.

Keep in mind: What we want to send you is NOT a cash dividend. But it's actually worth much, much more.

If you're familiar with how dividends typically work, you know they can be paid in cash... in stock... or in any form a company chooses.

For example, you may have heard of Gold Resource Corp., a Colorado Springs based mining firm. If you're a shareholder, you can choose to get your dividends in physical gold or silver, instead of cash.

Or consider oil giant British Petroleum. BP is one of many companies that offer something called Scrip Dividends. Instead of cash, shareholders can choose to get dividends in the form of additional shares of the company.

Some companies even reward shareholders with discounts on their products...

Ford Motor, for example, offers its shareholders discounts on cars.

Berkshire Hathaway shareholders get a variety of perks from Berkshire-owned companies... Like discounts on Geico car insurance, Borsheims jewelry, and See's Candies.

Royal Caribbean Cruises offers shareholders cash vouchers for use during their cruises.

So what kind of dividend do we want to send you from Stansberry Research?

Well, as I said, it's not cash. And it's not stock.

Instead, it's a series of gifts that could help you generate tens of thousands of dollars--every year--no matter what happens to the stock market.

Keep in mind: If you choose to accept, your first 'dividend' package will arrive at your doorstep via FedEx around **March 23.**

And once you are on our list, you will get a 'dividend' from us every month, for the next 12 months.

But I'm getting ahead of myself...

First, let me explain why we're launching this unusual program...

More Readers Than *Barron's*

I don't know how much you know about our firm... But when Porter started Stansberry Research back in 1999, he had practically no money.

He'd just been fired from his job as a financial researcher... for guess what?
"Insubordination."

Even back then Porter had big opinions. And he wasn't afraid to voice them.

And he had a vision.

A vision to create the single best financial research firm in America... One that was truly *independent*... And didn't simply publish research to please corporate interests or Wall Street banks.

He started Stansberry Research from his kitchen table, with a simple mandate:

Research the best wealth-generating ideas in the world... Write about them in a way that's accessible to everyone... And make sure there are no conflicts of interest.

Sounds simple, right? But *no one* was doing this at the time.

We've consistently offered our clients high-quality investment research since Porter launched this business in 1999. I believe the work we do is different... and vastly better... than any of our competitors. And the reasons for that are simple:

- We won't publish anything we don't consider to be good advice. We always ask ourselves: Would I want my own mother following this advice?
- We don't ever take fees for recommending service providers. For example, we don't ever promote coin dealers who rip people off. We don't promote insurance agents or brokers. We want our research to be completely unbiased.
- And every year, Porter publishes a "report card"... with a full, public track record of how each of his analysts performed. We don't know of anyone else in the industry that does this...

Most publishers just never publish any track record at all. Those that do, use all kinds of subterfuge to avoid producing an honest and complete track record. Not us.

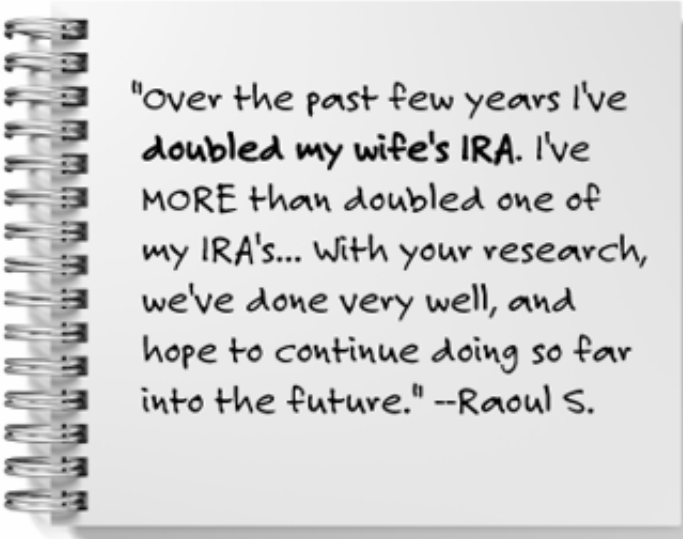

I'm telling you all this because today, we've become one of the biggest financial publishing firms in the country. We have over two dozen analysts and researchers... And loyal readers in over 130 countries.

We're a privately held company, so I can't give you all the details of our balance sheet.

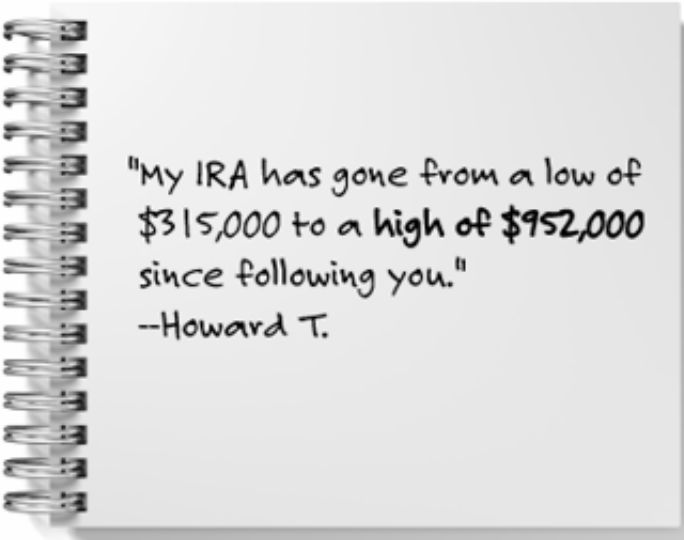

But I can tell you this: Last year, more people read our publications than *Barron's* or the *Financial Times*.

But more importantly... (And this is what makes the opportunity I want to tell you about today possible...) We've helped our subscribers make a tremendous amount of money.

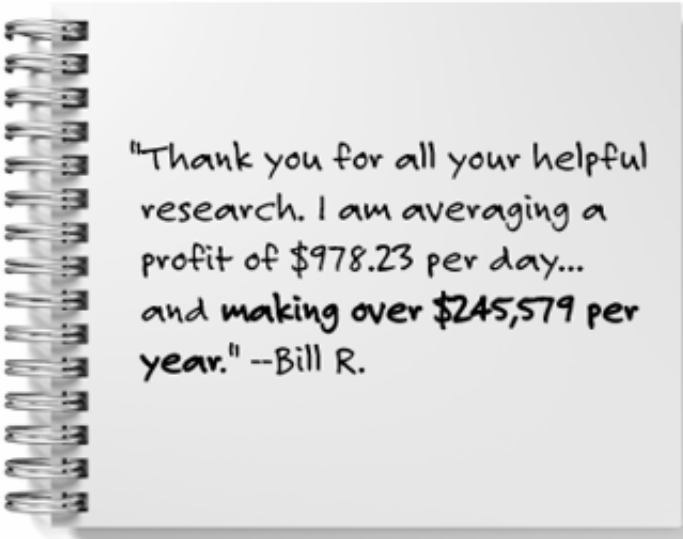

Just take a look at some of the notes we've received from readers over the past few years...

"Over the past few years I've doubled my wife's IRA. I've MORE than doubled one of my IRA's... With your research, we've done very well, and hope to continue doing so far into the future." --Raoul S.

"My IRA has gone from a low of \$315,000 to a high of \$952,000 since following you."
--Howard T.

"Thank you for all your helpful research. I am averaging a profit of \$978.23 per day... and making over \$245,579 per year." --Bill R.

And this year, we're doing something we've never done before...

In fact, we know of no other research firm that has done anything like this...

Porter has decided to launch our first-ever 'DIVIDEND PROGRAM.'

In short, every month for the next 12 months, we plan to give away a portion of our firm's most valuable asset: The foolproof, wealth-generating secrets we've perfected over the 16 years we've been in business.

These are the secrets Porter and his partners have used to build their own fortunes. Our analysts have perfected them after years and years of researching *every* corner of the financial markets. It took years of trial and error.

This knowledge is the most valuable asset our firm owns. It has the power to make you millions.

(No exaggeration. That's exactly what many of our readers have done. Like Jim P., a money manager who told us he and his clients made **\$1.6 million** on one stock recommendation alone.)

And for the first time, we've put all our best wealth-generating material together, in one Program.

Each of these secrets could make you up to \$100,000, depending on your circumstances. But together, the 'dividends' I'm about to show you could ensure that you and your family never, ever run out of money--no matter what happens to the economy, our currency, or the stock market.

Your first 'Dividend Package' should arrive at your doorstep via FedEx around **March 23**.

Here are the details...

DIVIDEND:

A PhD's Proprietary Stock-Market Formula

(Delivered to you around: March 23, 2015)

As Stanberry's longtime Editor in Chief, I can tell you... we have researched nearly every investment idea on the planet.

And because we've grown into one of the biggest publishers of financial information, a lot of folks now approach us with unique investment opportunities.

Some of these are legitimate.

Some turn out to be complete shams. For example, a few years ago we were approached by former baseball player turned financial analyst. We declined to work with him. He's now in jail for fraud.

But one investment tool we helped invent a few years ago is so powerful, we are including it in the first Dividend package we send you.

It was actually invented by senior Stansberry analyst Dr. Steve Sjuggerud in conjunction with one of his subscribers... A PhD mathematician named Dr. Richard Smith.

In short, Steve and Dr. Smith came up with a proprietary formula that gives you a PRECISE way to time your trade exits--which allows people to make a lot more money in stocks.

As I'm sure you've seen in your own experiences, knowing which investments to buy is actually only a small part of investing. Knowing *when* to sell is even more important.

This formula tells you exactly WHEN to sell *any* investment.

Just punch the relevant numbers from your current holding into the formula and... you're very likely to make more money.

I know it's hard to believe. But we've tested it... So have thousands of our subscribers... Some of whom are employees at some of the biggest banks, like Bank of America, Wells Fargo, HSBC, and UBS.

To show you how it works, I asked Dr. Smith to give you a real-life example...

In 2006, I bought shares of a small technology company called Immersion Corp for \$5.66 a share. I punched the ticker - IMMR - into my calculator.

Within a few months the share price jumped to \$8... \$10... then \$12.

All of a sudden, Immersion Corp. was trading above \$15 per share.

But how long would this last? Should I take my gains off the table now? If not now, when?

What would YOU do?

You're up over 170%.

Do you buy... hold... sell?

It's not always such an easy decision, is it?

Fortunately, the formula showed me exactly what to do... AND with near perfect mathematical precision.

You see, at \$16.11 the formula told me to "get out" of the stock... and I did. I sold it for an incredible 185% gain.

Nearly TRIPLING my money was great, of course, but that's not why this was such an important trade.

You see, over the course of the next several months - after I'd already sold - Immersion Corp. steadily fell to less than \$3 per share... well BELOW my original entry point (remember, I bought at \$5.66).

If I didn't have the formula to tell me WHEN to exit the position... who knows when I would have actually sold shares.

My point is, the formula maximized my profits AND saved me from near certain financial catastrophe.

You see, when it comes to investing and the financial markets, the human brain is NOT wired to make optimal decisions.

The vast majority of investors make their investment decisions based on emotion, rather than on logic or probability.

As a result, we do illogical things like buy high and sell low... hold on to losing investments we should sell... sell winning investments way too early... and follow the investing crowd off a cliff over and over again.

That's where the formula comes in...

No, it doesn't pick stocks for you. And it doesn't get you into an investment at the exact bottom or get you out at the exact top... But it does help you make bigger gains by crunching millions of stock market data points.

My point is, this formula can help you **double or triple** what you're currently making, no matter what you hold in your portfolio.

It's a valuable tool for anyone who wants to make a lot more money in stocks.

The best part is, Dr. Richard Smith has created an easy way for you to apply this formula to dozens of different investments.

In fact, because we like Dr. Smith's work so much, we recently became the majority shareholder in his firm, TradeStops... And now, we're sharing the benefits of that relationship with you as part of your first Dividend.

In other words: Now, you can get a dividend from our investment.

We want to give you full access to Dr. Smith's proprietary formula. His company, TradeStops, will help you use it on *any* investment you currently own.

We're including a one-year voucher to TradeStops in your very first Stansberry Dividend package. (Set to arrive at your home around March 23.)

Remember, this is just the first in a collection of our best, time-tested wealth secrets, which we plan to send you every month, for the next 12 months...

For example, as part of our first-ever Dividend Program, you'll also get...

DIVIDEND:
A Little-Known Book
That Could Make You \$100,000+
(Delivered to you on: Dec. 21, 2015)

I believe this is the single most important income book in America.

Probably less than 0.1% of investors in America know about it. You won't find it in Barnes & Noble.

And you probably won't hear about it from your financial advisor or stockbroker.

This short 128-page book will almost certainly change the way you look at generating investment income. I'm not exaggerating when I say it could help you make \$100,000 (or more) every year, for the rest of your life.

I personally use this income strategy. So do many of my colleagues at Stansberry Research. And, of course, so do many of our readers.

One reader told us he made \$18,665, in the span of just 7 days. Keep that up for a year... and you've made more than \$970,000!

Keep in mind: I'm not talking about collecting dividends or buying risky, high-yield investments.

Fact is, if you have a brokerage account and about \$20,000 in investing cash... you can start using the strategy described in the book as soon as the markets open tomorrow morning. You can safely collect *hundreds of dollars, in the span of a few minutes*.

Here's why this income book is so important:

It shows you why you can ignore 99.8% of publicly traded companies out there. The truth is, in order to generate enough extra income to last you the rest of your life... you may only need to pay attention to **25 companies**.

Also, keep in mind: The book does NOT tell you to buy shares in these companies outright. In fact, if you follow this income strategy, you will probably make the bulk of your money **WITHOUT** touching stocks.

You'll see step-by-step how to use this technique... And on **page 94** of the book, you'll find

a list of the 25 ideal businesses to use it on. That means you could eliminate 98% of publicly traded stocks from your investment radar.

Over the past decade-and-a-half we've been in business... we've found that this is the #1 way to generate more income with your investment portfolio. It's safe... lucrative... and easy to do on your own, once you understand how the whole thing works.

Which is why so many of us at Stansberry use this method for our own money.

Bottom line: If you're interested in earning extra income from your investments--without much risk--this book is a MUST READ.

One reader, Jim F., told us:

And I love this...

Another gentleman wrote to say what he learned from us about this strategy has been so successful he ordered a custom license plate for his Porsche spelling out the name of the strategy. "Thanks for introducing it to me," he said.

As part of our Dividend Program, we want you to own this book. Pass it on to your children and grandchildren.

Print out page 94 of the book and keep it on your desk. You'll be glad you did... especially

when you see thousands of dollars in extra cash flowing into your bank account.

But that's not all...

DIVIDEND: **Your Stockpile of Gold, Silver, Oil, Wheat, & Corn**

(Delivered to you on: Oct. 19, 2015)

We'll also help you get a stake in some of the most valuable and potentially profitable commodities on Earth.

I'm talking about precious metals like gold, silver, and platinum... As well as commodities like oil, gas, copper, iron, corn, wheat, and lumber.

Owning stakes in irreplaceable resource deposits and physical gold is without a doubt one of the best ways to protect yourself from a currency crisis.

You see, over the years, we've gotten to know--both personally and professionally--some of the best natural resource investors in the world.

Guys like Rick Rule... one of the biggest mining financiers in Vancouver.

Rick provides venture capital for discovery-stage companies prospecting for gold, silver, and other natural resources. He's given us invaluable advice on which mining stocks to research over the years...

Stocks like **Seabridge Gold**, which gave our readers a chance to see up to **995% gains**.

On a fishing trip to Panama in 2003, Porter formed another invaluable contact... A man

named Cactus Schroeder.

Cactus has been in the oil business for 30 years. He's a geologist and Texas 'wildcatter' who has been personally responsible for the discovery of millions of barrels of oil.

Without him, our readers might never have discovered one of the biggest moneymaking opportunities in the U.S. today: shale oil and gas.

In recent years, Porter and Steve Sjuggerud have also become personal friends with a man who owns some of world's best agricultural lands.

This guy's company is one of the largest owners of private farmland and cattle in South America. He even invited Stansberry to ring the opening bell with him on the New York Stock Exchange, to commemorate a new business deal.

My point is, through these well-connected *master* investors, we've learned a BIG secret of the commodities market... **A way to make huge profits in things like gold, oil, and farmland.**

This is how the smartest guys invest.

This secret is the closest thing there is to a guarantee to make you huge profits in the natural resources sector...

In fact, you could have used this secret to make a killing over the last few years with our recommendations of Silver Wheaton (**335% gains**)... Northern Dynasty Minerals (**322% gains**)... Saint Gaudens gold coins (**273% gains**)... Paramount Gold (**163% gains**)... ATAC Resources (**597% gains**) and many more.

If you're like 99% of investors out there, you're likely to *lose* money investing in commodities...

It's a risky sector. With big booms... and big busts that can wipe out even seasoned investors.

But you could make a lot of money in the natural resource markets, starting with very little money... if you know this one secret we've learned from the pros.

We're including it in a special Natural Resource Guide, which you can get as part of our first-ever Dividend

Program.

This Guide is designed to be your 'go to' resource for understanding commodities... and how to profit from them.

As part of this Dividend Program, we'll also send you a natural resource that we think could go up as much as 500% in the years to come. You'll get a real, live sample, which we believe could eventually be worth much, much more than it costs today. (I'll give you more details on this in a few minutes...)

I hope now you see where we're going with this Dividend Program...

Your Shortcut To Permanent Wealth

As I said, this is a collection of our firm's most valuable asset: The wealth-generating secrets we've researched, used, and perfected over the years...

Put together into a single Program, which will be delivered to you over the course of the next year.

I would estimate they've made our employees, our partners, and our readers more than **\$1 BILLION** over the past decade.

And last year was one of our best years--ever.

We released some of our best investment research and educational content last year. Our subscribers told us they made tens of thousands of dollars with these ideas...

"I did a year-end assessment of my portfolio and was pleasantly surprised at the results (more candidly, I was shocked). I just completed my first full year of subscribing to Stansberry Research... So you can imagine my delight to find that **my biggest portfolio winners had been Stansberry recommendations.**"
— Elaine D.

"Our account started 2014 at \$473,000. It ended the year at \$578,000... I have no idea where we would be, if it were not for all of you. Happy New Year to all."
— J.H.B.

"My IRA portfolio is **up 27% this year**, yet I have only had at most 10-15% of it in play, with the remaining in cash! Thank you and keep up the great research." — Art L.

In short: Our firm and our research are performing well. Some of our subscribers are doing even better.

So we thought: What if we could package all the best wealth secrets we've perfected over

the years into a series of valuable Dividends... And send them to a small group of our most dedicated readers, every month, over the course of a year?

Together, these dividends are designed to help you learn and implement the most important secrets of wealth building. They are designed to be your shortcut to wealth mastery.

We're calling this initiative Stansberry Research's **Permanent Wealth Program**.

One of our overriding goals at Stansberry Research is to give you the knowledge we'd want to have if our roles were reversed.

By sending you one valuable dividend every month for the next 12 months... we want to empower you with the knowledge that will help you generate *lasting, permanent wealth*--no matter what curveballs the government or the economy throws your way.

I can almost guarantee: If you implement the secrets in our *Permanent Wealth Program*, your retirement will be like a fortress, impermeable to the ups and downs of the market... And you will never, *ever* have to worry about running out of money.

Truth is, we've had most of the pieces in place for a few years now. But we've never before packaged all our best wealth-generating ideas and tools in one holistic Program.

I've already told you about 3 valuable dividends we want to send you:

A proprietary formula that could double your investment gains... An income book that could help you make \$100,000--every year... And a Natural Resource Guide that could help you profit from gold, silver, platinum, and oil.

In a minute, I'll give you details on some of the other dividends you'll receive.

But first, let me explain how you can qualify for this Dividend Program, and get on our distribution list...

Your Investment

You see, we've designed the *Permanent Wealth Program* specifically for our most dedicated customers.

What I mean by that is, in order to receive the dividends we've put together for you... You must make a small commitment to us.

That's how all dividend programs work.

For example, in order to receive hundreds of dollars in cash from one of our favorite dividend payers, Johnson & Johnson (JNJ), you need to invest around \$10,000.

The thing about great dividend programs like JNJ's is that the payouts usually keep increasing in value, year after year. *Often by double digits.*

So, if you're getting 3% a year in dividends... And the dividends are growing at a minimum of 10%... You will DOUBLE your money in less than 14 years.

We've designed our *Permanent Wealth Program* in a similar way.

The dividends we plan to send you over the next 12 months and beyond are designed to become more and more valuable to you over the next few years.

And as with any great dividend-paying machine like JNJ, which can pay you for life, you make only a one-time investment.

Don't worry, you don't have to invest \$10,000. Or even \$5,000.

Your one-time investment to join the *Permanent Wealth Program* is a fraction of the value it will generate for you over time.

We've made it as reasonable as possible. But the point is, in order to get something of incredible value, you must make a small investment first.

Another thing we need to be clear about is your expectations...

The real purpose of this Program is to preserve and grow wealth over time... not to participate in get-rich-quick deals.

The dividends we plan to send you are designed to help you make \$100,000 or more over the next few years.

But if you're the type of person who enjoys risky trading... And falls for the promise of 'overnight' riches... This is definitely NOT for you.

Quite simply, we want to share our best ideas with you every single month. We want to give you access to all our best wealth-generation tools... basically **for life**.

We're looking for highly motivated Stansberry readers. Folks who want to take charge of their finances... Take the time to learn the wealth secrets we've put together in this Program... And execute them properly in order to make tens of thousands of dollars in extra income every year, for the rest of your life.

For example, in addition to the first three dividends I described, you can also expect to receive in the next year...

DIVIDEND (Delivered to you on: Sept. 21, 2015):

This Dividend is a retirement blueprint that could help you make 20 times more money than you're currently making with your dividend investments.

In this blueprint, you'll discover a unique retirement strategy that could help you turn every \$6,700 invested into more than \$43,000... while earning as much as **18% in dividends.**

You don't have to speculate or buy any risky high-yield stocks. Instead it's a way to invest in the most iconic American businesses... while *supercharging* your income. This blueprint could not only help pay for your retirement... It could help you generate a large inheritance to pass along to your grandkids.

DIVIDEND (Delivered to you on: April 20, 2015):

You'll also get one of the best essays Porter has written, detailing the only stock investment he hopes his children will ever make.

This is one of the few equity investments that truly offers extraordinary rates of return, with little risk. Over the long term, Porter estimates it has generated returns that are more than *double* the S&P 500.

September						
Su	Mo	Tu	We	Th	Fr	Sa

12	13	14	15	16	17	18
19	20	21	22	23	24	25
26	27	28	29	30		

As Porter says: "If my children come to understand this ONE investment thoroughly, I know... they will be financially secure by the time they are 30 years old... and wealthy long

before they reach 50."

If you choose to join our brand-new *Permanent Wealth Program*, we'll put you on our distribution list for both these dividends, immediately.

Again, this is just a sample of the invaluable content you'll receive over the next 12 months--and beyond. Each dividend is designed to help you with an important aspect of investing, income, or wealth preservation.

But I haven't yet told you about the best part of this Program.

You see, it doesn't end after 12 months. As part of this Program, you'll also get our most valuable research--FOR LIFE, without paying regular subscription fees.

Here's what I mean...

Lifetime Access To Our Best Ideas

As part of the *Permanent Wealth Program*, you'll also get access to our best investment research--for as long as we're in business.

And you *never* have to pay the regular subscription fees for it.

I'm talking about monthly analysis and recommendations from Porter Stansberry, Steve Sjuggerud, 'Doc' Eifrig, and our natural resources expert Matt Badiali...

Including a ton of research and ideas that "regular" subscribers never get.

You'll get lifetime access--yes, for the rest of your life, as long as you want to receive it--to the most comprehensive Stansberry publications, starting with:

Stansberry's Investment Advisory

Price: \$299 per year (Platinum Level)

Permanent Wealth Program: No Subscription Fee (For LIFE)

This is our flagship publication... The one that started our company back in 1999. Today, it's one of the most widely read financial publications in the world.

In these pages, Porter Stansberry has been predicting the most promising emerging trends

and the most influential economic forces affecting the market--with uncanny accuracy--for the past 16 years. From the Internet boom and bust... the real estate boom... the 2008 financial meltdown... to the current oil boom in the U.S.

As a *Permanent Wealth Program* member, you'll have LIFETIME access to *Stansberry's Investment Advisory*... And you won't pay a penny in subscription fees.

But you'll also get access to something Porter's regular readers don't get...

You'll have immediate access to his highest level of research--the Platinum Level--which includes:

- **Stansberry Data:** This is a sophisticated service, in which Porter and his research team identify the biggest, most important trends in the market, and analyze ALL the companies and stock market opportunities that are affected by that big trend.

For example, in recent months, you would have seen in-depth analysis of the U.S. natural gas industry and the insurance sector.

- **Stansberry International:** This new research service is written by Porter and his research team. Their mission is to find the best companies in countries that offer far better investment returns than U.S. stocks.

They travel around the world in search of companies that have triple-digit potential. For example, right now Porter and his team are excited about an opportunity in South Korea.

Keep in mind: This research is normally ONLY available to folks who pay for the Platinum level of *Stansberry's Investment Advisory*. But you'll get it for life--without paying the yearly fee--as part of the *Permanent Wealth Program*.

The Platinum Level also includes:

- **Stansberry Radio Premium:** Hosted by Porter, Stansberry Radio has quickly become one of the most popular online radio talk shows in the country.

Porter's guests on the show have included world-famous hedge-fund manager Jim Rogers, value-investing legend David Dreman, publisher Steve Forbes, Libertarian presidential candidate Gary Johnson, and many others.

These guys often reveal their favorite ideas and investments in the world... And it's only available to paid subscribers. But you can get it, for as long as you want...

Without paying the regular fee.

- **Roundtable Podcast:** In addition, you'll get an exclusive dialogue between Porter and his top analysts. Every month, they recap their analysis from the issue. And Porter offers commentary that is often not available in his newsletter.

For example, Porter recently updated everyone on his economic outlook, which is extremely bearish. He said: "I believe what's coming now is going to be worse than a bear market. I believe that we are in the very early stages of a complete collapse of global capitalism." If you listen to one podcast this year you must listen to this episode as Porter explains why he's come to this scary conclusion.

Most of this research (like *Stansberry Data*, *Stansberry International*, and Porter's monthly podcasts) is simply not available to regular readers.

The only way you can get them is by subscribing to the Platinum Level of Porter's service.

But as a *Permanent Wealth* member you can access it immediately--and for as long as you want--without paying hundreds of dollars in subscription fees like everyone else.

You'll also get...

Doc Eifrig's *Retirement Millionaire*

Price: \$299 per year (Platinum Level)

Permanent Wealth Program: No Subscription Fee (For LIFE)

Each month Dr. David Eifrig, or "Doc" as we call him, shares the secrets of how to get everything you'll need for retirement, at big discounts. Dirt-cheap vacations... Healthcare savings... And little-known secrets of the financial world, like how to make thousands of dollars outside of the stock market.

Doc's basic research is yours--for life--as part of the *Permanent Wealth Program*.

But like with Porter's work, you'll also get a whole lot more in valuable content that basic subscribers never see...

- **Income Intelligence:** Doc and his research team recently launched this brand-new publication. I believe it is the single best income research service available anywhere.

Each month, Doc shares his insights about a specific income investment. He also

analyzes what's going on in the income markets.

But what makes this service unique is how Doc picks his entry points. He buys only when prices are cheap and income is high. To do that, Doc has developed a series of indicators for each income investment he uses.

If you want to generate income to live on, you need a strategy like the one he has developed in *Income Intelligence*. Right now, Doc's income portfolio has 10 safe recommendations with yields of 6% or more. You can begin using this research immediately, if you wish. It's yours for life, as part of this Program.

- **Doc's Asset Allocation Guide:** This is a quarterly guide to THE most important topic in investing--how to allocate your assets for safe wealth building. Every quarter, Doc and his research team recommend the ideal way for you to divvy your portfolio among cash, stocks, bonds, precious metals and other investments, based on your approximate age and situation in life.
- **Doc's Medical Library:** As a medical doctor, Doc Eifrig has a unique perspective on mainstream medicine and conventional health advice. You'll get access to 100-plus articles that cover everything you need to know about cancer prevention, weight loss, dangerous drugs and supplements, exercising your brain, everyday ailments, and the secrets that the medical industry won't tell you.
- **Doc's Favorite Income Strategy (Selling Puts):** This is hands-down the most powerful income strategy that I know of. But it involves options--specifically, selling put options--which scares a lot of people. That's why Doc has prepared some straightforward, plain English presentations that will show you exactly how to start generating thousands of dollars of income with this technique.
- **Retirement Millionaire & Income Intelligence "UNCUT":** Each time Doc releases a new issue of *Retirement Millionaire* or *Income Intelligence*, he gathers his entire staff, plus his favorite friends and business contacts from the world of health and finance, for a podcast. And they talk about what's going on in the markets... expand on the ideas they've been writing about... and share some important updates and insights with you.

Again, normally folks pay hundreds of dollars to access this content. It's only available to Platinum Level *Retirement Millionaire* subscribers.

But you can get it without paying regular subscription fees, for as long as you wish, as part of the *Permanent Wealth Program*.

But that's not all... You'll also get...

Steve Sjuggerud's *True Wealth*

Price: \$299 per year (Platinum Level)

Permanent Wealth Program: No Subscription Fee (For LIFE)

In this monthly newsletter, alternative investment expert Dr. Steve Sjuggerud finds unconventional ways to generate all the money you'll need to retire... Without taking any big risks.

And like with Porter and Doc Eifrig's work, you'll get the highest level of Steve's work--for life--at no extra charge.

In addition to Steve's basic *True Wealth* research, you'll get...

- **DailyWealth Premium:** Steve uses his access and connections in the financial industry to give you all the best professional investment research and recommendations in the world. He cherry-picks the best investment ideas in the industry, and he sends them to you each morning... before the markets open. You'll get the name, ticker symbol, and the "quick capsule" thesis behind each recommendation.
- **Inside True Wealth Podcast:** You'll hear directly from Steve and his research team every month, as they analyze each month's recommendations... offer insights into what they are thinking... and answer general subscriber questions.
- **CHU Monitors (coming soon):** Every week, Steve and his team are planning to send an update on 3 monitors they keep track of: which stocks or sectors are Cheap, which ones are Hated, and which ones are in an Uptrend. As longtime readers may know, these are the 3 metrics Steve uses to pick winning investments.

In addition to Porter, Doc, and Steve's work, you'll get...

Matt Badiali's *Stansberry Resource Report*

Price: \$299 per year (Platinum Level)

Permanent Wealth Program: No Subscription Fee (For LIFE)

This monthly letter, written by expert geologist Matt Badiali, focuses on the best natural resource investments in the world.

Matt has literally crossed the globe... from the Yukon and Turkey to Iraqi Kurdistan and Papua New Guinea. He has even risked his life in a few cases to find the most lucrative new opportunities in energy and metals for his subscribers.

We're about to launch the Platinum Level of Matt's research service... which will cost at least \$299 per year. But again, you can get it at no extra charge, for as long as you want.

In addition to monthly *Resource Report* issues, you'll get...

- **Monthly Data Report:** Every month, Matt and his research team will provide in-depth analysis of major trends in the resource industry.
- **Roundtable Podcast:** You'll hear directly from Matt about each month's recommendations... including additional research and insights not in the published issue.

And this is probably the most exciting new feature of the Platinum Level subscription...

- **The Platinum Interview Series:** Over the past ten years, Matt has spent a huge amount of time on the road... attending and speaking at conferences, meeting with entrepreneurs, and visiting resource projects. During this time, he has built a large Rolodex of elite natural resource investors and executives.

Staying in touch with these experts has helped his readers make hundreds of percent in natural resource companies like Silver Wheaton, Carbo Ceramics, and Northern Dynasty Minerals. Many of these folks are world leaders in their fields... and they share insights with Matt that many investors would never normally get to access.

Because these friends of the *Resource Report* have so many insights and recommendations to offer, we're launching a new monthly interview series. Each month, Matt will speak with some of the top oil and gas executives, mining entrepreneurs, successful money managers, and industry experts to get their views on the biggest trends in the industry today and their top recommendations for investors.

Keep in mind: The interview series will give you 'bonus picks' outside regular monthly issues.

As a *Permanent Wealth* member, you'll get all of this for life, at no extra charge.

Bottom line: If you're interested in building a safe, fortress-like retirement portfolio... we believe these are the only research publications you need.

We're giving you LIFETIME access to this research because it perfectly complements the wealth-generating dividends you will get as part of the *Permanent Wealth Program*.

In short: Stansberry Research's *Permanent Wealth Program* is designed to equip you with elite wealth-building and investment tools that will last you for the rest of your life. It is designed to make you a great investor in any kind of market.

And if at any point you need specific investment picks and actionable research... you'll have ready access to the work of our best analysts.

These publications, along with the 12 wealth dividends we plan to send you, could easily help you generate an extra \$100,000 in retirement income--every single year.

As I said, all you pay is a one-time investment to join the *Permanent Wealth Program*, which costs a fraction of the value of what you will get.

And you NEVER have to pay another subscription fee.

The only catch is, we have a limited number of monthly dividend packages to send out.

So if you're interested, you MUST let us know immediately. We're keeping this offer open for a very limited time. If we run out of supplies, we might have to shut down this offer at short notice.

And there's one more important benefit you should know about...

Your 'Permanent Wealth' Concierge

If you choose to join Stanberry Research's *Permanent Wealth Program*, there's something incredibly important I'd like you to keep in mind...

This Program is unlike anything we've ever done before. We're essentially giving you ALL the best wealth-generating knowledge we've accumulated and perfected over the years.

Our analysts and researchers have worked for more than 15 years to acquire this knowledge.

It's not something you can fully digest in just a few weeks.

Although this Program massively condenses the time it will take you to become a great investor, we recommend you take at least one year to learn and execute the secrets contained in the *Permanent Wealth Program*.

That's why we're delivering our wealth dividends in a unique way... One dividend every month--for 12 months.

- **WELCOME BOX**: As a *Permanent Wealth Program* member, the first thing you'll receive is a Welcome Box. This should arrive at your doorstep around **Monday, March 23**.

Your Welcome Box contains a number of valuable gifts from us, including a custom-designed precious metal. It's designed to start your journey to investment mastery.

- **12 MONTHLY DIVIDENDS**: Then, every month, you'll start receiving one dividend from us. Each dividend is designed to help you with an important aspect of investing, income, or wealth preservation.

In addition, we may also send to your doorstep a surprise item or two... something that has nothing to do with investing.

- **PLATINUM LEVEL RESEARCH, FOR LIFE**: You'll get immediate access to the best ideas from Porter Stansberry, Dr. David Eifrig, Steve Sjoggerud, and Matt Badiali. You'll get much, much more than what regular subscribers get. You'll have access to the Platinum Level of research for each analyst... for LIFE, without paying hundreds

of dollars every year.

- **MONTHLY UPDATES**: You'll also receive *Permanent Wealth* Monthly, a monthly update from me, Brian Hunt, Editor in Chief here at Stansberry Research.

Every month, I'll go over what's happening in the financial markets, highlight our top investment ideas, and show you how they should fit into your overall wealth strategy.

And here's the most important 'perk' you'll receive as a new member...

- **YOUR PERMANENT WEALTH CONCIERGE**: We've created a dedicated team of Stansberry representatives... as well as a unique 800 number just for *Permanent Wealth Program* members.

You can think of these folks as your *Permanent Wealth* Concierge.

If you have any questions... If you need help... Or if you simply want someone to walk you through your monthly materials... Call us. Our representatives will be on call Monday-Friday, from 9am to 8pm (Eastern Time).

Bottom line: We believe this Program is the most important collection of wealth-generating secrets anyone has ever put together. We want you to use these secrets to live a worry-free and rich retirement.

And we want to do everything in our power to make this happen...

Which is why we've dedicated a whole team of full-time employees just to help you out with this process.

And there's one more 'gift' we'd like you to have when you join this Program today...

- **1 YEAR OF DAN FERRIS' PREMIUM RESEARCH**: In addition to the Platinum Level of our most comprehensive research... Porter has also insisted we give all new *Permanent Wealth Program* members access to one year of Dan Ferris' *Extreme Value*.

This is one of Stansberry Research's premium publications. (It costs \$1,000 a year.)

Extreme Value has consistently offered some of the biggest stock gains in the Stansberry Research portfolio... including **249%** on KHD Humboldt Wedag... **248%** on International Royalty... **201%** on Alexander Baldwin... and **142%** on Icahn Enterprises, to name a few.

That's why many well-known money managers follow Dan's recommendations. And his work has been covered extensively in *Barron's* and other respected news outlets.

And for the next year, we'd like you to access Dan's premium research free of charge.

To join the *Permanent Wealth Program* you'll only make a one-time investment of \$1,497.

This investment is laughably cheap when you add up the value of everything we will be sending you over the next 12 months and beyond.

For example, if you want to receive Porter Stansberry's Platinum Level of research, it typically costs \$299 a year. Doc, Steve, and Matt's best work costs \$299 per year as well.

Add it all up, and you're looking at nearly \$2,400 in subscription fees over two years.

But, as part of the *Permanent Wealth Program*, you can get all their best ideas for life... including a ton of resources and ideas that basic subscribers never see.

Plus you get 12 Dividends over the next 12 months... which by themselves could make you upwards of \$100,000.

The reason we have priced it this low is simple: We want to empower as many of our paid subscribers with the incredible investment knowledge we have perfected over the years.

With this Program, our goal is to create thousands of empowered 'Stansberry Retirees' who will live a full, rich life--without money worries and without depending on the U.S. government for 'handouts.'

Keep in mind: In addition to your one-time investment, we ask that you pay a small maintenance fee of \$149 each year. This small fee covers some of our overhead costs, like the dedicated Concierge team we have in place for you.

Without this fee, we'd never be able to make such an offer. But that's all you will ever pay to receive everything I described above.

And since this is an unusual Program... something we've never done before... we have a very unusual guarantee as well:

You can take the next 12 months to decide if Stansberry Research's *Permanent Wealth Program* is for you.

In other words, you can receive the Welcome Box... All 12 Dividends... And one whole year of access to the Platinum Level of *Stansberry's Investment Advisory* (including *Stansberry International*), *True Wealth*, *Retirement Millionaire* (including *Income Intelligence*), and *Stansberry Resource Report*... As well as one year of *Extreme Value*, which normally costs \$1,000.

If after one year, you don't agree that this is the best value for money you have ever received... Call us. Our Concierge team will happily refund your one-time fee in full.

The only thing we ask is that you return the initial Welcome Box back to us. As I said, it contains a number of valuable gifts from us, including a custom-designed precious metal.

Just call us, and we'll send you a return label, at our expense.

Everything else you receive from us during the first 12 months is yours to keep. No charge.

There is simply NO downside for you.

We're making this crazy, generous offer because that's how much we believe in the *Permanent Wealth Program*.

And one more thing: If you decide to stay with us as a lifetime member, you can pass on your membership to your children and grandchildren.

If you're interested in trying it out, and receiving your first Stansberry Dividend around March 23, click on the button below.

We're keeping this offer open for a limited time. Remember, we have limited supplies of our dividend packages.

Just click on the button below to get started. Before you commit, you will be able to see a full summary of everything you will receive as a new *Permanent Wealth Program* member.

Brian Hunt
